Situation Overview

Please give a short overview of the overall situation (security, number of IPDs/Refugees, economic) in the countries where you are responding

The cities of Kyiv and Dnipro experienced 23 continuous days without missile strikes. On the evening of July 16, at least two missile waves were directed at Kharkiv City, ending a period of zero missile strikes since June 24. Although not replicated in all significant population centers, the decreased focus on these cities was followed by a rise in attack intensity near the frontline target areas.

Russia's refusal to renew the Black Sea Grain Initiative translated into an intense long-range strike campaign against Ukrainian port infrastructure, causing significant collateral damage and having an impact on property utilized by NGOs in Odessa and Mykolaiv.

Ukrainian long-range strikes on operationally-significant targets in Russian Forces rear facilitate Ukrainian Forces offensive in the South, incentivise Russian strikes on major military facilities across Ukraine.

With new formalized access permits and improved ID checks at checkpoints, frontline changes drive rising access limitations and have an impact on NGO movement modalities.

The total number of refugees from Ukraine recorded globally is **6,240,400 of which 5,882,100 are recorded in Europe**. The total border crossing from Ukraine since the beginning of the war is **22,480,790** while the border crossing to Ukraine is **15,857,985**.¹
